Dear The Federal Communications Commission,

Congratulations on your appointment to Chair the FCC.

Please eliminate completely the unconstitutional taxation represented by the USF.

It is not the constitutional duty of the Federal Communications Commission, which some can argue is unconstitutional in itself, to force taxes on customers just to pay for services that others are too poor to afford. Nowhere in the founding documents of this country do our founding fathers say that we should be forced to pay taxes to support ease of life luxuries for others.
